EDUCATION

- **Shah & Anchor Kutchhi Engineering College** — Mumbai, Maharashtra
  B.Tech in Information Technology; CGPA: 8.9 — *Expected May 2027*

- **Navjeevan Junior College** — Mumbai, Maharashtra
  HSC (12th): 78%; MHTCET: 93% — *June 2022*

- **Swami Vivekanand International School & Jr College** — Mumbai, Maharashtra
  Secondary School Certificate (10th); Percentage: 88.2% — *June 2020*

PROJECTS

- **GigsHub – Freelance Marketplace Platform** — Live Link
  Full-Stack Developer (MERN Stack) — *Ongoing*
  - **Full-Stack Architecture**: Architected a scalable marketplace using **React, Node.js, and Express**, implementing 15+ RESTful API endpoints for gig management, order tracking, and real-time user reviews.
  - **Secure Transactions**: Engineered a secure checkout flow by integrating **Stripe API** for INR payments and implemented **JWT-based** role-based access control (RBAC) for improved user data privacy.
  - **Media Optimization**: Streamlined portfolio uploads by integrating **Cloudinary** for cloud image storage, reducing server-side processing load and enhancing frontend load speeds.

- **Blockchain Medical Records System** — Live Link
  Decentralized Application (Web3)
  - **Smart Contract Development**: Developed and deployed **Solidity** smart contracts on the **Ethereum** blockchain to ensure 100% immutable and tamper-proof storage of sensitive patient medical history.
  - **Patient Data Sovereignty**: Built a patient-centric access control system using **Web3.js and MetaMask**, allowing users to grant or revoke data permissions to healthcare providers in real-time.
  - **Frontend Integration**: Designed a high-performance decentralized dashboard using **Next.js and React**, facilitating seamless interaction between the user interface and the blockchain ledger.

- **Dwello – Real Estate Booking Platform** — Live Link
  Full-Stack Web Application
  - **Database Engineering**: Designed a complex relational data schema using **Prisma ORM** with **MongoDB**, enabling efficient property searching, filtering, and booking management.
  - **Authentication & State**: Integrated **Auth0** for robust enterprise-grade authentication and utilized **React Query** for efficient server-state management and data caching.
  - **UI/UX Design**: Developed a responsive scheduling interface using **Mantine UI**, allowing users to book property visits with a streamlined 3-step confirmation process.

CERTIFICATIONS

- **Cloud & AI**: AWS Academy Graduate (GenAI Foundations), Google AIML Certification, Altair Data Science Professional.
- **Cybersecurity**: Palo Alto Networks Security Operations, Eduskills Ethical Hacking Certification.
- **Software Dev**: Google Android Development (Compose), Cisco Advanced C and JavaScript Essentials.

SKILLS

Languages: Java, JavaScript (ES6+), C++, Python, SQL, Solidity, HTML/CSS
Frameworks: React, Node.js, Express.js, Next.js, Redux, Tailwind CSS, Mantine UI
Tools & DBs: MongoDB, Redis, Prisma ORM, Git/GitHub, Postman, Docker, MetaMask
Specializations: Full-Stack Development, Blockchain (Ethereum), Cloud Security, GenAI
